

Art

- The student learned about the concept of shape and form by creating the round, egg-like shape of Humpty Dumpty using paper mache.
- Through the use of paper mache, the student gained an understanding of texture and how different materials can be manipulated to create different surface effects.
- The activity encouraged the student to explore the concept of color mixing by painting the finished Humpty Dumpty, learning about primary and secondary colors in the process.
- Creating the character of Humpty Dumpty allowed the student to express creativity and develop their imagination through sculpture and craft.

English

- The student engaged with the popular nursery rhyme "Humpty Dumpty" through the creation of the character, allowing them to connect their artistic activity with a piece of literature.
- Working on the project encouraged the student to listen and follow instructions, building their language comprehension and understanding of sequential steps.
- The activity provided an opportunity for the student to engage in storytelling and role-playing as they discussed and acted out the story of Humpty Dumpty while creating the character.
- The student learned new vocabulary related to the materials and steps involved in creating the paper mache Humpty Dumpty, expanding their language skills.

Encourage continued development by suggesting the child to make more paper mache characters from different nursery rhymes. This can provide a fun way to explore different stories and characters while honing their artistic and literary skills. Additionally, encouraging the child to write or tell their own version of the Humpty Dumpty story can further enhance their language skills and creativity.

Book Recommendations

- [Humpty Dumpty and Other Rhymes](#) by Lily Murray: A collection of classic nursery rhymes, including the tale of Humpty Dumpty, which the child can enjoy alongside their art and craft activities.
- [Let's Make Some Paper Mache](#) by Angela A'Court: A beginner's guide to paper mache projects, providing step-by-step instructions for creating various characters and objects using paper mache.
