

English

- The student has improved their vocabulary by learning new words related to the game such as crafting, mining, and building.
- They have enhanced their reading skills as they often have to read in-game instructions, signs, and dialogue from characters.
- The game has sparked their imagination and creativity, as they often create stories and descriptions for the structures and landscapes they build.

Encourage the student to write short stories or descriptive paragraphs about their Minecraft adventures. They can also create their own Minecraft-themed books, writing about their own characters, settings, and adventures.
