

## Core Skills Analysis

### Homeschool

- By tidying his room, the student learned the importance of organization and the benefits of a clean environment for studying effectively.
- The activity of tidying his room also taught the student time management skills as he had to allocate time to sort and clean his belongings.
- Through this activity, the student gained a sense of responsibility by taking care of his personal space and belongings.
- Tidying his room also provided an opportunity for the student to practice decision-making skills in deciding where items should be placed for easy access.

### Tips

Creative ways for continued development related to tidying his room activity can include implementing a reward system for keeping the room tidy, setting up a personalized organization system that suits the student's workflow, and encouraging regular maintenance to prevent clutter from building up. Additionally, involving the student in room decorating projects can foster a sense of ownership and pride in their living space.
