

## Core Skills Analysis

### Language Arts

- The 8-year-old student gained a better understanding of sentence structure by identifying where fronted adverbials are placed in sentences.
- Through the activity, the student improved their writing skills by incorporating fronted adverbials to make their sentences more engaging.
- The student's vocabulary expanded as they explored different types of fronted adverbials and practiced using them in sentences.
- By using fronted adverbials effectively, the student enhanced the flow and coherence of their writing.

### Grammar

- The student demonstrated a deeper grasp of grammatical concepts by recognizing how fronted adverbials can enhance sentence variety.
- Through practicing fronted adverbials, the student sharpened their understanding of parts of speech, particularly adverbs.
- The activity helped the student comprehend the importance of punctuation when incorporating fronted adverbials at the beginning of sentences.
- By experimenting with different fronted adverbials, the student honed their skills in structuring complex sentences.

### Tips

Encourage the student to create their own sentences using a variety of fronted adverbials to keep the practice engaging. Incorporating storytelling or journaling with fronted adverbials can make language learning more fun and personalized. Additionally, playing games that involve forming sentences with fronted adverbials can further reinforce understanding. To enhance creativity, encourage the student to explore different types of adverbs to diversify their fronted adverbial usage.
