

## Core Skills Analysis

### Art

- The student learned about different colors and how they can be combined to create new shades and hues.
- They developed their creativity and imagination by coming up with unique face painting designs.
- The activity helped improve their fine motor skills and coordination while painting intricate patterns on the face.
- They learned about different brush strokes and techniques to create different textures and effects.

### Social Skills

- The student practiced patience and cooperation when taking turns to paint faces with classmates.
- They learned to communicate their ideas and preferences effectively to the person painting their face.
- The activity encouraged teamwork as students helped each other choose designs and paint.
- They developed empathy by considering the preferences and feelings of their peers during the activity.

### Tips

To continue developing their face painting skills, students can explore different themes such as animals, superheroes, or fantasy creatures. Encouraging them to practice on paper first can help them plan their designs. Additionally, organizing a face painting session with family or friends can provide more opportunities to practice and showcase their creativity.
