Core Skills Analysis

Art

- The student learned about color theory and combinations while selecting beads for the bracelet.
- They practiced fine motor skills by picking up and threading small beads onto the string.
- Creativity was sparked as they designed unique patterns and arrangements for their bracelet.
- Attention to detail was honed as they ensured each bead was placed correctly on the bracelet.

Tips

Engage the student in exploring various bead shapes and sizes to add dimension to their bracelets. Encourage them to experiment with different threading techniques such as braiding or macramé to create more intricate designs. Hosting a bead bracelet making session with friends can foster a sense of community and collaboration, allowing them to share ideas and inspiration.
