

Core Skills Analysis

Foreign Language

- Students can learn vocabulary related to clothing in the target language by naming the different items they are dressing the figures in.
- The activity promotes cultural awareness as students may discuss traditional clothing from various countries while dressing up the figures.
- Language skills are enhanced as students communicate with each other about their choices of clothing and discuss why they selected specific outfits for the figures.
- Creativity is fostered as students are encouraged to design and create their own clothing for the figures, potentially incorporating language elements such as colors or patterns.

Tips

To further develop language skills, consider incorporating storytelling elements where students describe the outfits they have created for the figures in the target language. Encourage role-playing scenarios using the figures dressed in different clothes to practice dialogue in the foreign language. You can also organize a fashion show activity where students present their designed outfits while using the language to describe them.

Book Recommendations

- [The Paper Dolls](#) by Julia Donaldson: This book sparks imagination and creativity as a little girl creates paper dolls and goes on adventures with them, emphasizing the power of creativity and storytelling.
- [Clothes Around the World](#) by Sven Nordqvist: Introduces children to different types of clothing worn around the world, providing insights into various cultures and traditions, which can supplement discussions during the activity.
- [The Girl with a Brave Heart: A Tale from Tehran](#) by Rita Jahanforuz: Explores the story of a girl in Iran who makes beautiful clothes for the poor, showcasing the value of creativity, compassion, and multicultural understanding.
