Core Skills Analysis

Physical Education

- Engagement in physical activity through walking and exploration.
- Improved hand-eye coordination while throwing Pokeballs to catch Pokemon.
- Understanding the concept of exercise and movement through hatching eggs in the game.
- Developing teamwork and social skills by participating in raids and gym battles with other players.

Tips

For continued development, encourage the student to participate in Pokemon Go community events or create their own Pokemon Go challenges with friends. They can also try exploring new areas to discover different types of Pokemon and focus on completing in-game tasks for a well-rounded experience.
