

Core Skills Analysis

Communication Skills

- Through 'talking jiberish,' the student may have improved their improvisation skills by learning to think on their feet and respond quickly.
- This activity could have enhanced the student's active listening skills as they needed to pay attention to their partner's 'jiberish' and respond appropriately.
- By engaging in 'talking jiberish,' the student may have developed their non-verbal communication skills, such as using gestures and expressions to convey meaning.
- This activity might have encouraged the student to be more confident in their verbal communication, as they had to communicate effectively despite the nonsensical language.

Tips

To further enhance communication skills through activities like 'talking jiberish,' students can practice active listening in daily interactions, participate in improv classes to boost thinking on their feet, try learning a new language to understand the nuances of communication, and engage in storytelling exercises to improve narrative abilities.
