

## Core Skills Analysis

### Creativity

- The activity of watching behind the scenes of a favorite movie can inspire the 8-year-old student to think creatively about storytelling, character development, and set design.
- By observing the filmmaking process, the student can learn about different artistic techniques used in movie production, such as special effects, makeup, and costume design.
- This activity can spark the student's imagination, encouraging them to come up with their own unique ideas for movies or creative projects.
- The behind-the-scenes insights can also help the student understand the collaboration and teamwork involved in bringing a movie to life.

### Film Studies

- Through watching behind the scenes of a movie, the 8-year-old can gain an understanding of the various roles in film production, such as director, cinematographer, and editor.
- The activity can introduce the student to the concept of visual storytelling and how different camera angles and lighting can impact the mood and tone of a scene.
- By examining the creative decisions made by filmmakers, the student can develop a critical eye for analyzing movies and appreciating the artistry behind them.
- The behind-the-scenes insights can also provide the student with a glimpse into the technological aspects of filmmaking, such as green screen technology and CGI.

### Tips

Engage the student in discussions about their favorite movie and encourage them to share their ideas for creating their own stories or scenes. Provide opportunities for hands-on activities related to filmmaking, such as creating storyboards or simple stop-motion animations. Consider organizing a movie-making project with the student and their friends to encourage collaboration and creativity.

### Book Recommendations

- [The Movie Making Book: Skills and Tricks for Young Filmmakers](#) by Dan Farrell: This book is a practical guide for young aspiring filmmakers, covering various aspects of movie making from scripting to editing, with fun hands-on activities and tips.
