

## Core Skills Analysis

### English

- Improved vocabulary by thinking of words starting with specific letters under time constraints.
- Enhanced knowledge of spelling and linguistic patterns through word association.
- Boosted creativity by coming up with unique words that fit the given categories.
- Enhanced communication skills by explaining chosen words to others in the game.

### Tips

To further develop language skills after playing the Tapple word game, encourage the student to practice word association games using different categories or themes. Another tip is to introduce word challenge sessions where the student needs to quickly come up with synonyms or antonyms for words. Additionally, incorporating storytelling activities that involve using the words generated during the game can enhance narrative and descriptive writing abilities.
