

Core Skills Analysis

English

- The 5-year-old student learned new vocabulary related to sports and teamwork terms through playing netball.
- Participating in the activity helped the student improve their verbal communication skills by interacting with teammates and following game rules.
- Playing netball encouraged the student to express themselves through non-verbal gestures, such as hand signals and body language.
- The activity fostered listening skills as the student had to pay attention to instructions and game strategies.

Physical Education

- The student developed gross motor skills by running, jumping, and throwing while playing netball.
- Engaging in the sport enhanced the student's hand-eye coordination and agility as they aimed to catch or throw the ball.
- Netball helped the student understand the concept of spatial awareness by moving within designated areas on the court.
- The activity promoted teamwork and cooperation among the students, emphasizing the importance of supporting each other to achieve common goals.

Tips

To further enhance the student's learning and development through playing netball, consider incorporating mini-games or challenges that focus on specific skills like passing accuracy or footwork. Encourage the student to practice at home with simple drills to improve their overall performance. Providing positive reinforcement and praise for their efforts can boost their confidence and enthusiasm for the sport. Additionally, organizing friendly matches with other students can create a fun and competitive environment that motivates the student to continually improve their netball skills.
