

Core Skills Analysis

Art

- Through this activity, the 8-year-old student learned about color mixing and blending by experimenting with different shades using the provided paints.
- The student also explored the concept of texture by using various tools to create different patterns and effects on their artwork.
- By following the activity instructions, the student gained an understanding of composition and balance in their piece, learning how to arrange elements harmoniously.
- Additionally, the student expressed their emotions and thoughts creatively through their art, showcasing their individual style and imagination.

Tips

For continued development in art, encourage the 8-year-old to explore different art mediums such as pastels, charcoal, or even digital art tools. Engage them in art appreciation by visiting museums or art galleries to expose them to a variety of styles and techniques. Encourage the child to keep a sketchbook to practice regularly and experiment with new ideas. Finally, support their creativity by providing them with constructive feedback and praising their efforts to boost their confidence.
