

Core Skills Analysis

Communication Studies

- The student practices verbal communication skills by engaging in conversations with her friends through FaceTime.
- Enhances non-verbal communication skills such as facial expressions and gestures during the video calls.
- Develops active listening abilities by paying attention to her friends' words and responding appropriately.
- Improves interpersonal communication by sharing thoughts and feelings with her friends virtually.

Social Studies

- Expands cultural awareness by learning about her friends' backgrounds and interests during their video calls.
- Forms a strong bond with her friends, showcasing the importance of friendship and social connections.
- Gains insights into different societal norms and values through interactions with friends from diverse backgrounds.
- Develops empathy by understanding and supporting her friends in various situations discussed during FaceTime calls.

Technology

- Enhances digital literacy skills by proficiently using FaceTime to communicate with friends.
- Explores the functions and features of FaceTime, showcasing adaptability to new technologies.
- Understands the importance of online safety and privacy while communicating with friends over video calls.
- Develops troubleshooting abilities by resolving any technical issues that may arise during the FaceTime conversations.

Tips

To continue developing communication skills, encourage the student to try different forms of communication such as writing letters or emails to her friends. Additionally, engaging in group video calls with more friends can help her practice managing conversations with multiple people effectively.
