

Core Skills Analysis

Made sa dwish

- The student likely improved their creativity skills by brainstorming and creating the 'dwish' concept.
- This activity might have developed the student's problem-solving abilities as they figured out how to make their 'dwish.'
- The student could have enhanced their communication skills through discussing their ideas and the process of creating the 'dwish.'
- This activity may have also helped the student understand the importance of patience and attention to detail in crafting their 'dwish.'

Tips

Encourage the student to further explore their creativity by trying out variations of the 'dwish' concept. They can also experiment with different materials or methods to create unique 'dwishes.' Additionally, have the student reflect on how they can apply the problem-solving strategies used in this activity to real-life situations. Finally, suggest setting aside dedicated time for creative projects regularly to nurture their inventive skills.
