

## Core Skills Analysis

### Verbs

- The 9-year-old student successfully identified verbs in sentences, showing a good understanding of action words and their role in a sentence.
- Through the activity, the student grasped the concept of verb tenses, recognizing past, present, and future tense verbs in sentences.
- The student demonstrated an ability to create sentences using different types of verbs like transitive and intransitive verbs.
- By practicing verb usage in context, the student improved their writing skills by incorporating varied verbs to make their sentences more engaging.

### Tips

To further enhance the learning experience related to verbs, encourage the child to create short stories where they use a wide range of verbs to describe actions vividly. Incorporating fun games like verb charades or creating verb-themed flashcards can also make learning verbs enjoyable and interactive. Additionally, provide opportunities for the child to identify verbs in everyday conversations or while reading books to reinforce their understanding in different contexts.
