

Core Skills Analysis

Emotional Development

- Identified and expressed various emotions such as joy, sadness, and fear as depicted by the characters.
- Developed empathy by relating to the feelings of the toys and understanding their challenges.
- Learned the concept of friendship and loyalty as demonstrated through Woody and Buzz's relationship.
- Understood the importance of supporting friends during difficult times, as seen in the film's plot.

Problem Solving

- Observed how characters worked together to solve problems, fostering collaborative thinking.
- Engaged in critical thinking by discussing what actions the characters took in challenging situations.
- Explored the consequences of choices made by characters, enhancing decision-making skills.
- Practiced predicting outcomes based on characters' decisions and the unfolding storyline.

Creativity

- Inspired to think imaginatively about what toys can 'do' beyond just being inanimate objects.
- Encouraged to create their own stories or scenarios involving their own toys, fostering creativity.
- Explored the use of pretend play linked to the film, developing narrative skills.
- Aspired to create crafts or drawings related to the characters and scenes in Toy Story 4.

Tips

Encourage the child to discuss their feelings about the film and relate those emotions to personal experiences. Invite them to create their own stories with toys or engage in role-play to further develop empathy, creativity, and problem-solving skills. Consider introducing discussions on friendship and teamwork through interactive group activities and games.

Book Recommendations

- [Toy Story: A Storybook Collection](#) by Word Publishing: A collection of stories featuring beloved characters from the Toy Story franchise, perfect for sharing the adventures with young readers.
- [The Big Book of Toy Story](#) by Various Authors: A vibrant picture book that introduces the characters and scenes from Toy Story, encouraging discussion and imagination.
