# **Core Skills Analysis**

### **Physical Development**

- Developed gross motor skills through walking and jumping on stepping stones.
- Improved balance and coordination by navigating uneven surfaces.
- Enhanced spatial awareness while moving in relation to friends and the environment.
- Learned to control body movements to adjust landing and jumping distances.

#### **Social Skills**

- Engaged in cooperative play, learning how to take turns and share the game.
- Communicated with friends, fostering language skills and expressive communication.
- Navigated group dynamics, building understanding of social interactions.
- Built friendships through shared experiences and fun, enhancing emotional connections.

### **Problem-Solving Skills**

- Encountered challenges in jumping distances and developed strategies to overcome them.
- Explored different ways to arrange the stones for varied difficulties in gameplay.
- Learned to adapt movements based on successes and failures during jumps.
- Engaged in trial and error to improve performance and find solutions to game dynamics.

# **Tips**

To further explore and improve skills, Billy could experiment with variations of the game by adding more complex arrangements of stones, increasing the distances between them, or introducing new rules. Exploring different jumping techniques and ways to balance on stones can also enhance both physical and cognitive skills. Engaging in joint planning with friends for the next game can further foster teamwork and cooperative play.

### **Book Recommendations**

- <u>Jump, Frog, Jump!</u> by Robert Kalan: A fun and interactive story about a frog jumping away from various animals, perfect for engaging young children in jumping activities.
- The Pout-Pout Fish Goes to Camp by Deborah Diesen: A delightful tale of a fish's adventure at camp, focusing on friendship, cooperation, and fun group activities.
- <u>I Can Jump Puddles</u> by Alison Lester: A playful book encouraging children to jump over puddles and explore their surroundings, promoting physical activity and imaginative play.
