

## Core Skills Analysis

### Social Skills

- Engaged in role-playing scenarios, enhancing communication skills and understanding of social interactions.
- Demonstrated empathy by taking turns and sharing Barbie dolls with peers.
- Collaborated with classmates to create storylines, fostering teamwork and cooperative play.
- Explored different perspectives by portraying characters with varied backgrounds and characteristics.

### Creativity and Imagination

- Utilized the Barbie dolls to invent unique stories, boosting imaginative thinking and narrative skills.
- Experimented with different outfits and accessories, developing an eye for design and aesthetics.
- Constructed settings and environments for the dolls, enhancing spatial awareness and artistic expression.
- Expressed emotions and ideas through play, encouraging creative problem-solving.

### Fine Motor Skills

- Practiced dressing Barbie dolls, improving dexterity and hand-eye coordination.
- Manipulated small accessories, enhancing precision in movements and grip strength.
- Engaged in assembling props or doll houses, supporting cognitive development through fine motor tasks.
- Participated in activities that require balancing and positioning dolls, enhancing control and grip.

### Storytelling and Language Development

- Created dialogues for the dolls, developing vocabulary and narrative skills.
- Explored different types of stories through play, understanding structure and storytelling methods.
- Shared stories with peers, enhancing confidence in public speaking and verbal expression.
- Practiced listening skills by engaging with others' stories and responding appropriately.

### Tips

To further explore and improve, the student can benefit from engaging in collaborative storytelling sessions with peers or adults, encouraging them to develop more complex narratives and deepen their social interactions. Additionally, introducing themes of diversity and inclusivity through Barbie dolls can broaden their understanding of different cultures and perspectives.
