Core Skills Analysis

Media Literacy

- Understanding how streaming services like Netflix curate content for specific audiences.
- Recognizing the impact of various genres on viewer preferences and cultural representation.
- Learning to differentiate between scripted shows and documentaries, understanding their purposes.
- Analyzing how marketing campaigns influence viewing choices and popularity.

Technology

- Gaining insights into the technology behind streaming, such as buffering and internet speeds.
- Familiarity with how algorithms recommend shows based on previous viewing habits.
- Exploring the differences between downloading and streaming content.
- Understanding the importance of stable internet connectivity for an optimal viewing experience.

Social Studies

- Exploring cultural diversity through international films and series available on Netflix.
- Discussing the portrayal of historical events in documentaries and films.
- Identifying social issues depicted in Netflix shows and their relevance to current society.
- Understanding audience demographics and how different cultures influence storytelling.

Tips

Further exploration could include creating a simple documentary about their favorite Netflix show, examining its cultural significance and production processes. Improvement could focus on promoting critical thinking and discussions about media influence on personal beliefs and values.

Book Recommendations

- [Inside the Streaming Revolution](#) by Sarah Albee: An engaging guide that explores the world of streaming media and how it has changed the way we watch television.
- [The Magic of Movies](#) by Misty B. Cannon: A fun read for kids that takes them behind the scenes of beloved films, discussing storytelling and visual effects.
- [Cultural Connections: Netflix and Beyond](#) by Diana P. Mendez: This book encourages children to think critically about the cultural narratives presented in various shows and movies.
