

Core Skills Analysis

English

- The student has learned to summarize information by describing different European landmarks in their own words.
- The activity enhanced their vocabulary by introducing new terms related to architecture and geography.
- They practiced writing descriptive sentences, emphasizing sensory details about the landmarks.
- The student improved their reading comprehension skills by interpreting texts about each landmark.

Geography

- The student developed an understanding of the geographical locations of various European landmarks on a map.
- They learned about the cultural significance of each landmark, linking history with modern geography.
- The activity enabled them to identify distinct architectural styles unique to different regions in Europe.
- The student explored how natural landscapes and urban settings influence the construction and preservation of landmarks.

Tips

To further enhance understanding, the student could explore virtual tours of the landmarks, researching their historical backgrounds and modern significance. Engaging in discussions with peers about the differences in cultural perceptions of these landmarks might also be beneficial. Furthermore, they could practice creating their own landmark designs, incorporating elements learned from the activity.
