

## Core Skills Analysis

### Reading and Phonics

- Identified and pronounced individual letters and their corresponding sounds.
- Developed the ability to blend sounds to form simple words.
- Enhanced vocabulary through interactive story prompts and word games.
- Improved comprehension skills by answering questions related to stories and texts.

### Math and Numbers

- Recognized numbers and their values through counting activities.
- Applied basic addition and subtraction using visual aids and fun games.
- Engaged in number sequencing and pattern recognition tasks.
- Developed problem-solving skills while playing math-related games and exercises.

### Critical Thinking and Problem Solving

- Applied logic to complete various puzzles and challenges.
- Learned how to approach tasks methodically by breaking them down into smaller steps.
- Developed resilience by attempting challenging tasks and learning from mistakes.
- Enhanced decision-making skills through interactive game-based learning.

### Tips

To further enhance the learning experience, encourage exploration of different literary genres, introduce themed learning (e.g., animals, space), and provide opportunities for creative expression through storytelling and art. Incorporating technology, such as audiobooks or educational apps, can also play a vital role in maintaining engagement and fostering learning.

### Book Recommendations

- [Chicka Chicka Boom Boom](#) by Bill Martin Jr. and John Archambault: A lively alphabet rhyme about letters climbing up a coconut tree.
- [The Very Hungry Caterpillar](#) by Eric Carle: A classic story that introduces counting, days of the week, and transformation.
- [Pete the Cat: I Love My White Shoes](#) by Eric Litwin: A fun musical story that teaches colors and the concept of persistence.
