

## Foreign Language

- The Ninth-grade child has learned basic vocabulary and phrases in the target language through interactive exercises.
- They have developed listening comprehension skills by completing audio-based activities and matching spoken words to written text.
- The child has practiced reading comprehension by translating sentences and paragraphs from the target language to their native language.
- Through Duolingo's gamified approach, the child has gained motivation and engagement in learning a foreign language.

For continued development in foreign language learning, encourage the child to engage in conversation with native speakers, either through language exchange programs or online language communities. They can also explore other language learning apps and resources to further expand their vocabulary and deepen their understanding of grammar rules. Watching movies, TV shows, or reading books in the target language can also be helpful in improving their language skills and cultural understanding.

## Book Recommendations

- [The Little Prince](#) by Antoine de Saint-Exupéry: A classic tale that can be found in various languages, providing an opportunity for the child to practice reading and understanding the target language in a familiar story.
- [The Diary of a Young Girl](#) by Anne Frank: This powerful memoir can be an excellent choice for practicing reading comprehension and gaining insights into historical events while improving language skills.
- [The Alchemist](#) by Paulo Coelho: A thought-provoking novel that explores themes of self-discovery and personal growth, suitable for language learners to enhance their vocabulary and comprehension skills.
