

## Core Skills Analysis

### History

- The student has learned about the key events that led to the rise and fall of the Roman Empire, including the Punic Wars and the influence of Julius Caesar.
- They have explored the daily life of Romans, including social structure, family life, and the importance of slavery in Roman society.
- The student has gained insights into Roman architecture and engineering, understanding how innovations like aqueducts and roads contributed to the empire's expansion.
- They have examined the cultural impact of Ancient Rome, including its contributions to law, governance, and the arts, which have influenced modern societies.

### Geography

- The student has identified the geographic extent of the Roman Empire at its height, including key regions such as North Africa, Europe, and the Middle East.
- They have learned how the geography of the Italian Peninsula influenced the development of Rome, including its access to trade routes and military advantages.
- The student has mapped major cities of Ancient Rome, such as Rome itself, Carthage, and Alexandria, understanding their strategic importance.
- They have studied the impact of natural resources in Roman territories, focusing on how geography affected agriculture and commerce.

### Culture

- The student has discovered how Roman mythology and religion shaped the culture of Ancient Rome, learning about gods, rituals, and their significance.
- They have appreciated Roman contributions to art and literature, examining famous works like Virgil's 'Aeneid' and sculptures from the era.
- The student has explored entertainment in Ancient Rome, including gladiatorial games and theatrical performances, and their role in society.
- They have analyzed the influence of Greek culture on Roman society, recognizing the blending of artistic and philosophical ideas.

### Tips

To enhance your child's learning experience surrounding Ancient Rome, consider incorporating hands-on activities such as building a Roman structure using LEGO or Minecraft to illustrate their understanding of architecture and urban planning. Encourage discussions about the lessons learned from Roman history and how they relate to contemporary society. Additionally, you could organize a virtual field trip to Ancient Roman sites or museums, providing a visual and interactive element to their study.

### Book Recommendations

- [SPQR: A History of Ancient Rome](#) by Mary Beard: An engaging overview of Roman history, examining the people and events that shaped Ancient Rome.
