

## Core Skills Analysis

### English

- The student has demonstrated the ability to recognize and articulate the sounds of the letters in the alphabet during the 'ABC' activity.
- They have shown progress in understanding the relationship between letters and their corresponding words by identifying objects or images that begin with each letter.
- The student is increasingly able to sequence letters in the correct order and articulate the alphabet without prompts.
- They participated in creating simple words using the letters learned, enhancing their spelling and vocabulary skills.

### Tips

To further enhance the child's learning experience, parents and teachers can introduce interactive games that involve letter recognition and sound matching. Incorporating storytelling that emphasizes new vocabulary words can also be beneficial. Using physical objects representing different letters to create a scavenger hunt can encourage the child to explore language in a fun and engaging way.

### Book Recommendations

- [Chicka Chicka Boom Boom](#) by Bill Martin Jr. and John Archambault: A lively alphabet rhyming book that introduces letters through a playful story of young letters climbing a coconut tree.
- [The Very Hungry Caterpillar](#) by Eric Carle: A classic children's book that uses simple text to introduce counting, days of the week, and familiar objects, perfect for enhancing vocabulary.
- [Alphabet City](#) by Stephen T. Johnson: A beautifully illustrated book that encourages young readers to look for and recognize the letters of the alphabet hidden in urban landscapes.
