

History

- Ababs has learned about different historical landmarks and monuments in the country by exploring them on Google Maps.
- Through this activity, Ababs has gained knowledge about the historical significance of various cities and regions.
- Ababs has also developed an understanding of how historical events have shaped the country's geography and culture.

Physical Education

- While exploring Google Maps, Ababs has identified different parks, playgrounds, and sports facilities in different parts of the country.
- Ababs has learned about the importance of physical activity and the benefits of outdoor spaces for recreational activities.
- Through this activity, Ababs has become familiar with various sports venues and facilities available in different regions.

Science

- By using Google Maps, Ababs has learned about the diverse natural landscapes and ecosystems present in the country.
- Ababs has gained knowledge about different geographical features such as mountains, rivers, forests, and deserts.
- Through this activity, Ababs has developed an understanding of the importance of protecting and conserving natural resources.

Social Studies

- Ababs has explored different cities and towns on Google Maps, learning about their unique cultural aspects and traditions.
- Through this activity, Ababs has gained knowledge about the diversity of people, languages, and customs within the country.
- Ababs has also developed an understanding of the concept of community and the importance of respecting and appreciating different cultures.

To further enhance Ababs' learning experience, encourage them to create a virtual travel diary. They can document their virtual explorations on Google Maps by taking screenshots, writing short descriptions, and adding their own reflections about the places they visit. This will not only reinforce the concepts they have learned but also encourage creativity and critical thinking.

Book Recommendations

- [Me on the Map](#) by Joan Sweeney: This book introduces the concept of maps and helps children understand their place in the world.
- [There's a Map on My Lap!: All About Maps](#) by Tish Rabe: This book provides an engaging introduction to maps and their various types.
- [Our Country's Presidents: All You Need to Know About the Presidents, from George Washington to Barack Obama](#) by Ann Bausum: This book offers a glimpse into the history of the country through its presidents, complementing Ababs' exploration of landmarks and historical sites.
