Tips

To deepen understanding and critical thinking about digital media consumption, encourage the student to explore various types of content genres and reflect on the purpose and impact of each. Discuss the difference between subscription and free services, helping them weigh pros and cons in terms of value and privacy. Introduce activities like creating a short video review or summary of a favorite video to foster engagement and communication skills. Additionally, explore the ethical aspects of digital media use such as respecting copyright, understanding terms of service, and managing screen time responsibly.
