

## Art

- The child learned about visual storytelling through the illustrations in the game.
- They practiced composition and design by creating their own game board or character artwork.
- They explored color theory and experimented with different color palettes when drawing or painting game elements.

## English Language Arts

- The child improved their reading comprehension skills by following the game's story and understanding the instructions.
- They practiced creative writing by expanding on the storyline or creating their own short stories inspired by the game.
- They developed their vocabulary by encountering new words and phrases in the game's narrative.

## Foreign Language

- The child practiced language skills by translating game cards or instructions into a different language.
- They expanded their vocabulary in the foreign language by encountering new words and phrases in the game.
- They improved their pronunciation by speaking and listening to words or phrases used in the game.

## History

- The child learned about different cultures and historical periods through the game's thematic elements and storylines.
- They gained an understanding of historical events or figures mentioned in the game through further research or discussion.
- They explored the concept of time and chronology as they made decisions that affected the game's outcome.

Encourage your child's creativity and continued development by suggesting they create their own board game or story with historical themes. They can conduct research on specific time periods or civilizations and incorporate that knowledge into their designs. Additionally, they can explore different art styles from various historical periods and experiment with incorporating those styles into their game artwork.
