

## **Art**

- The Fifth-grade child learned about color theory and how different colors can create visual interest on their kub kar design.
- They explored different art techniques, such as painting and drawing, to embellish their kub kar.
- They gained an understanding of proportion and balance when determining the placement of decorative elements on their kub kar.
- They learned about creativity and self-expression as they designed a unique and personalized kub kar.

## **English Language Arts**

- The Fifth-grade child practiced their descriptive writing skills by using adjectives and vivid language to explain their kub kar design.
- They developed their storytelling abilities by writing a short narrative about their kub kar's journey in a race.
- They improved their communication skills by presenting their kub kar design to the class, explaining their design choices, and answering questions.
- They learned about the importance of following instructions and reading comprehension when building their kub kar based on the given specifications.

## **Math**

- The Fifth-grade child utilized measurement skills to ensure their kub kar met the required dimensions and weight restrictions.
- They applied geometry concepts to create symmetrical designs and calculate angles for decorative elements.
- They practiced data analysis by recording and comparing their kub kar's performance in multiple races, identifying patterns and trends.
- They learned about budgeting and financial literacy by estimating and tracking the cost of materials needed for their kub kar design.

## **Science**

- The Fifth-grade child explored the principles of friction and aerodynamics when designing their kub kar for optimal speed.
- They learned about the properties of different materials and their effect on the kub kar's performance.
- They gained an understanding of forces and motion as they observed how their kub kar moved during the races.
- They developed problem-solving skills by troubleshooting issues with their kub kar's performance and making adjustments.

## **Social Studies**

- The Fifth-grade child learned about teamwork and collaboration by working together with classmates to race their kub kars and celebrate each other's achievements.
- They explored cultural diversity by discussing and appreciating the different design choices and themes represented in their classmates' kub kars.
- They gained an understanding of competition and sportsmanship as they participated in the kub kar races, practicing fair play and respecting others' efforts.
- They learned about the history and significance of kub kar racing in scouting organizations and how it connects to the broader community.

Continued development related to the activity can be fostered by encouraging the Fifth-grade child

to explore other forms of design and construction. They can experiment with different materials, such as clay or recycled materials, to create sculptures or functional objects. Encourage them to research famous designers and architects to learn about their design processes and inspiration. Additionally, participating in design challenges or competitions can further enhance their problem-solving skills and creativity.

### **Book Recommendations**

- [The Design Book for Children](#) by Phaidon Editors: This book introduces young readers to the world of design, showcasing various design concepts and featuring examples from different fields such as fashion, architecture, and product design.
- [How to Draw Cool Stuff: A Drawing Guide for Teachers and Students](#) by Catherine V. Holmes: This book provides step-by-step instructions and tips for drawing a variety of cool and imaginative objects, allowing young artists to further develop their drawing skills.
- [The Boy Who Harnessed the Wind: Young Reader's Edition](#) by William Kamkwamba and Bryan Mealer: This inspiring true story follows a young boy in Malawi who uses his creativity and resourcefulness to build a windmill from scrap materials, bringing electricity to his village.
