

English Language Arts

- The child has developed their reading comprehension skills by reading and following the instructions within the game.
- They have improved their vocabulary by interacting with other players and learning new words in the context of the game.
- The child has practiced their writing skills by communicating with other players through chat and messages.
- They have also learned about storytelling and narrative structure by creating their own game scenarios and scripts.

To further develop their English Language Arts skills, encourage the child to explore writing their own stories based on the Roblox game. They can create characters, settings, and plotlines inspired by their gameplay experiences. Additionally, they can join Roblox writing communities or forums to share their stories and receive feedback from other players.
