

English Language Arts

- Isabella practiced reading and understanding financial terms such as "debit card" and "balance".
- She learned about the importance of budgeting and making wise financial decisions.
- Isabella wrote a short story about her experience of getting her own debit card, focusing on using descriptive language and proper sentence structure.
- She discussed the advantages and disadvantages of using a debit card compared to cash with her classmates, improving her oral communication skills.

Math

- Isabella learned how to calculate her account balance by subtracting her expenses from her initial deposit.
- She practiced addition and subtraction skills by keeping track of her transactions and updating her balance regularly.
- Isabella applied basic percentage calculations when considering sales tax on her purchases.
- She compared prices of different items to make informed decisions on how to spend her money.

Social Studies

- Isabella explored the concept of financial responsibility and its impact on personal and societal levels.
- She discussed the role of banks and financial institutions in managing money and providing services like debit cards.
- Isabella learned about the importance of budgeting and saving for future goals.
- She gained an understanding of the risks and benefits associated with using debit cards.

Encourage continued development by engaging Isabella in real-life scenarios that involve budgeting and financial decision-making. For example, you can create a pretend store at home where Isabella can practice comparing prices, making purchases, and calculating her account balance. Another idea is to assign her a small weekly allowance and let her manage her own expenses, tracking them in a notebook or spreadsheet.

Book Recommendations

- [Money Madness](#) by David A. Adler: A story about a girl who learns the value of money and the importance of saving.
- [How to Turn \\$100 into \\$1,000,000](#) by James McKenna: A guide that teaches children about saving, investing, and growing their money.
- [One Cent, Two Cents, Old Cent, New Cent](#) by Bonnie Worth: A fun and educational book that explores the history of money and its different forms.
