

Activity: "Write a sentence and draw a picture to represent the sentence"

English Language Arts

- The child demonstrates understanding of sentence structure by composing complete sentences.
- The child practices vocabulary and word choice by selecting appropriate words for their sentence.
- The child develops creativity and visual representation skills by drawing a picture that accurately represents their sentence.
- The child enhances storytelling abilities by using their sentence and picture to convey a message or tell a story.

Encourage continued development by providing various prompts for sentence writing and drawing. For example, you can ask the child to write sentences about their favorite animals or draw pictures of their dream vacation. You can also introduce storytelling games where they have to create a sentence and draw a picture based on a given scenario or theme.
