

Art

- The child learned about the use of color and composition in creating visual representations of past and current events.
- They explored different artistic techniques to depict historical and contemporary subjects.
- They practiced their observational skills by analyzing and interpreting visual elements in artworks related to past and current events.
- They gained an appreciation for how art can be used as a means of expressing ideas and reflecting on societal changes over time.

Foreign Language (Spanish)

- The child engaged in conversational activities in Spanish, discussing past and current events in a meaningful way.
- They practiced their vocabulary and grammar skills while expressing their opinions and exchanging ideas with others.
- They learned about the cultural aspects related to past and current events in Spanish-speaking countries.
- The activity helped them improve their listening and speaking skills in Spanish.

For continued development, encourage the child to explore more artworks and analyze how they reflect past and current events. They can also engage in role-playing activities where they take on the role of historical or contemporary figures and have conversations about relevant events. Additionally, encourage them to read news articles or watch videos in Spanish about past and current events to further enhance their language skills.
