

Herbie the Love Bug - Presentation and film... Our son presented to a group of between 30-50 homeschoolers and parents with our 1963 Volkswagen Beetle that was road registered and drove to the site. He showed aspects differentiating a 1963 beetle over other years, and describing what work we would be doing to create a Herbie replica. Art helped with some of the work we would be undertaking to give the kids insight into a car project. It went very well and he presented very well to the group. Can you please list the learning areas that have been covered and why? / Subject Explorer / LearningCorner.co

- The child learned about the design and aesthetics of a 1963 Volkswagen Beetle.
- Exploring the concept of creating a replica of Herbie encourages creativity and artistic expression.
- Understanding the visual appeal of Herbie the Love Bug in popular culture.
- Exploring the concept of car design and customization.

## English Language Arts

- Practiced public speaking skills during the presentation to communicate effectively with the audience.
- Describing the differences between the 1963 Volkswagen Beetle and other years involved engaging in descriptive writing.
- Learning about the storytelling aspect of Herbie the Love Bug and its impact on popular media.
- Exploring the narrative of car projects and the process of creating a replica.

## History

- Gained knowledge about the historical significance of the 1963 Volkswagen Beetle in the automotive industry.
- Understanding the cultural impact of Herbie the Love Bug and its representation in different time periods.
- Learning about the evolution of automotive technology and design from the 1960s to the present day.
- Exploring the historical context of car customization and the concept of making a replica.

## Math

- Understanding the mechanical aspects of the 1963 Volkswagen Beetle, including measurements and calculations related to the restoration work.
- Learning about the mathematical principles involved in car restoration and customization projects.
- Practicing budgeting and cost estimation for the Herbie replica project.
- Exploring the aerodynamics and engineering concepts related to car design.

## Music

- Exploring the musical themes and soundtrack associated with Herbie the Love Bug.
- Understanding the use of music in film and its connection to storytelling and emotional impact.
- Engaging with the concept of sound design in movies and its effects on audience perception.
- Learning about the cultural influence of music in the context of movies and popular media.

## Science

- Gaining knowledge about the mechanical and technical aspects of the 1963 Volkswagen Beetle.
- Understanding the physical properties of automotive materials used in car restoration and customization.
- Exploring the science of car mechanics and the principles of automotive engineering.
- Learning about the environmental impact of car restoration and sustainable practices in automotive projects.

## Social Studies

- Understanding the social and cultural impact of the 1963 Volkswagen Beetle and its representation in different communities.
