

Art

- The child may have enhanced their hand-eye coordination and fine motor skills by using the app to trace and write letters.
- They may have developed an understanding of visual design through the app's colorful and engaging interface.

English Language Arts

- The child likely learned letter recognition and phonics by associating images with their corresponding letters and sounds.
- They may have improved their spelling and vocabulary by practicing spelling words through interactive games and activities on the app.

For continued development, consider integrating the spelling activities with real-life scenarios. Encourage the child to identify and spell everyday objects around the house or during outdoor activities. Additionally, incorporating storytelling exercises where the child can write and spell their own short stories can further enhance their language skills.

Book Recommendations

- [ABC See, Hear, Do: Learn to Read 55 Words](#) by Stefanie Hohl: A fun and interactive book that connects letters, sounds, and words for young readers.
- [B is for Bulldozer: A Construction ABC](#) by June Sobel: This book introduces the alphabet through colorful construction-themed illustrations and simple word associations.
- [The Alphabet Book](#) by P.D. Eastman: A classic alphabet book with humorous illustrations and simple, engaging text to help children learn their ABCs.
