

## Art

- The child learned about different textures and materials by using glue and pasting decorations on their work.
- They developed fine motor skills by manipulating and handling small decorations and using a glue stick or a small bottle of glue.
- They explored creativity and self-expression by selecting and arranging the decorations on their work, showing their unique artistic preferences.
- They learned about patterns and design by arranging decorations in a specific way to create visually appealing artwork.

For continued development, consider introducing different types of materials for decorating, such as fabric scraps, beads, or buttons. You can also encourage the child to explore collage art by pasting different types of materials on their work, creating more intricate and textured designs. Additionally, provide opportunities for the child to experiment with different adhesive methods, such as using a glue brush or experimenting with decoupage techniques.

## Book Recommendations

- [The Dot](#) by Peter H. Reynolds: A story about a girl who discovers the joy of creative expression through art and encourages others to do the same.
- [Mouse Paint](#) by Ellen Stoll Walsh: A fun and colorful book about three mice exploring color, which can inspire children to create their own vibrant artworks.
- [The Very Hungry Caterpillar](#) by Eric Carle: This classic book features colorful collage illustrations, inspiring young readers to explore different textures and shapes in their own art activities.
