

Art

- The 17-18 year old student learned about character design and illustration techniques through creating unique monsters for the garden.
- They developed their understanding of color theory and composition by designing the garden environment and incorporating various colors and elements.
- The activity enhanced their creativity and imaginative thinking by allowing them to invent and depict fantastical creatures and their habitats.
- They practiced digital art skills by using digital drawing tools and techniques to bring their monster garden to life.

Encourage the student to experiment with different art styles and mediums for their monster garden, such as mixed media collages or sculpture. They can also explore creating a narrative or story around their monsters to further develop their creative expression.

Book Recommendations

- [The Art of Making Believe](#) by Mary Jo Finney: This book explores the role of imagination and creativity in art, which can inspire the student's approach to creating fantastical monsters for their garden.
- [Color and Light: A Guide for the Realist Painter](#) by James Gurney: This book delves into the principles of color and light in art, providing valuable insights for the student's exploration of color theory in their monster garden.
- [Character Design Quarterly: Issue 0](#) by 3dtotal Publishing: This publication offers insights and tips on character design, which can be helpful for the student in refining their monster designs for the art activity.
