

# What is Solar Smash?

Solar Smash is a fun and exciting video game where you can simulate the destruction of planets and celestial bodies. It's not only entertaining, but it also allows you to learn about space and maybe even some science concepts!

## Game Features

- **Planet Destruction:** You can choose different planets to destroy using various tools like missiles, lasers, and asteroids.
- **Different Modes:** The game offers different modes, including a mode to experience the game without limits.
- **Visuals:** The graphics are vibrant and appealing, making it exciting to play.

## Educational Aspects

Even though Solar Smash is primarily a destruction game, it can introduce you to:

- **Solar System Knowledge:** Learn the names and characteristics of different planets in our Solar System.
- **Physics Concepts:** Understand concepts like gravity and impact by experimenting with different ways to destroy planets.

## Is Solar Smash Suitable for You?

At 10 years old, you can play Solar Smash! Just remember that it's a game about destruction, so it's important to keep a balance and also explore games that encourage creativity and learning.

## How to Play Solar Smash

1. **Download the App:** First, make sure to download Solar Smash from the app store on your device.
2. **Choose a Planet:** When you start the game, you can select which planet you want to destroy.
3. **Select Your Tool:** Pick the destruction tool you'd like to use to interact with the planet.
4. **Have Fun!** Experiment with different tools and try to see how creative and destructive you can be while learning about the planets!
