

Hi there! Here's how you can use your drawing tablet to have lots of fun drawing animals:

1. **Switch the tablet on:** Find the power button on your tablet and press it gently to turn it on. You will see the screen light up.
2. **Tap on the animal you want to draw:** Look at the pictures of animals on the screen. Use your finger to tap the animal you like best. This will open the drawing instructions for that animal.
3. **Follow the steps in the instruction booklet:** Now, look at your special instruction booklet. It will show you how to draw your chosen animal, step by step. Take your marker (like a special pen) and start drawing on the paper following the booklet.
4. **Hear fun sounds:** While you draw, your tablet might make fun animal sounds! Listen carefully—they make drawing even more exciting.
5. **When you are done, press the check icon:** After finishing your drawing, look for a green check mark (a tick) on the tablet screen. Tap it to show that your drawing is complete. Great job!

Enjoy making your beautiful animal drawings and have fun!
