

Hello! Let's learn about two words: **game** and **book**.

Game: A game is something you play for fun. It can be with toys, on the computer, or outside with friends. For example, playing tag is a game.

Book: A book is something you read. It has pages with stories or pictures. For example, a storybook you read before bed is a book.

So, a *game* is for playing, and a *book* is for reading. Both are fun in different ways!
