

## Fun Quokka Facts for Kids!

Quokkas are small, furry animals that live in Australia. They are often called the "happiest animals in the world" because they seem to be smiling all the time!

### 1. What is a Quokka?

A quokka is a tiny kangaroo-like animal. It has short ears, a round face, and a big smile that makes people happy when they see it.

### 2. Where do Quokkas Live?

Quokkas are found mostly on small islands off the coast of Western Australia, like Rottnest Island.

### 3. What do Quokkas Eat?

They love to eat plants, leaves, and grass. They usually eat at night to avoid the hot sun.

### 4. Why Do Quokkas Smile?

Even though it looks like a smile, their face shape makes them look happy all the time. People love their cheerful looks!

### 5. Are Quokkas Friendly?

Quokkas are curious and gentle creatures, but it's important not to touch them because they are wild animals.

Isn't it fun to learn about the little quokka and its big happy smile?
