

Firefighters are very special helpers! They wear shiny helmets and big, heavy suits to keep them safe from fire. Their job is to:

- **Pretend:** *Firefighters practice every day to be prepared. They pretend to rescue people and put out fires to be ready if there is a real emergency.*
- **Put Out Fires:** *If there is a fire, firefighters come quickly in a big red truck with flashing lights. They use big hoses with water to make the fire go away.*
- **Help People:** *Sometimes, if someone is stuck or scared, firefighters come to help them, just like heroes in a story!*
- **Teach Safety:** *Firefighters also teach us how to stay safe, like not playing with matches and knowing what to do if there is a fire!*

Firefighters are very brave, and they work hard to keep everyone safe!
