

# What is a School Bus Stop Sign?

A school bus stop sign is a special sign that helps keep kids safe when they are getting on or off a school bus!

## How Does it Work?

When a school bus is picking up or dropping off kids, it will stop and turn on its big flashing red lights. The arm with the stop sign will come out from the side of the bus. This means that all cars must stop and wait until the bus has finished letting kids off and the lights are turned off.

## Why is it Important?

This stop sign keeps children safe by making sure that cars do not drive by when they are getting on or off the bus. It's like a superhero sign that protects kids!

## What Should You Do?

If you see a school bus with the stop sign out, you should always stop and wait until the sign goes back in and the lights stop flashing. This way, you help keep your friends safe!

## Remember!

Always pay attention to school bus stop signs and respect them because they help protect everyone on the road.
