

Okay, little one! Do you see those special cars with all the bright lights and sirens? They are called police cars! Police cars are very fast. They go zoom, zoom!

When someone is in trouble or if a bad guy is doing something wrong, the police car drives quickly to help! Just like when you see your favorite toy roll super fast, police cars are speedy to get to where they need to be.

And guess what? The lights that blink and the loud sounds help tell other cars on the road, 'Look out! Police car coming through!' This helps everyone move to the side to let the police car go super fast to help!

So remember, police cars are fast helpers, and they have the cool lights to keep everyone safe!
