

Okay, little buddy, let's talk about firefighters! Firefighters are like superheroes who help us when there is a fire or if someone is in trouble. They have a special job to protect us and keep us safe.

Now, when someone needs help, they can call a special phone number. This is called calling for help! When the firefighters hear the call, they get ready super fast! They wear their big uniforms, put on their helmets, and jump into their big fire trucks.

The fire trucks are very cool! They can go really fast, and they have loud sirens that go 'weee-ooh-weee-ooh!' This helps everyone on the street know that the firefighters are coming to help.

So, when we say that firefighters can respond extra quickly, we mean they work like a flash to help people when they are in trouble! Isn't that amazing?
