

# What is a Double Decker Bus?

A double decker bus is a big, tall bus that has two floors! Just like how you and your friends might play on two levels of a pirate ship or a castle, the double decker bus has a lower level and an upper level.

When you ride on a double decker bus, you can sit upstairs and see a lot more of the world outside because you're sitting so high up! It's like being on a giant, moving playground. You might see tall buildings, trees, and even clouds if you look up!

They are usually painted in bright colors, and you can find them in big cities. Some people ride them to go to school, to see fun places, or just to go to the store. Isn't that cool?

So, a double decker bus is like a super fun, big car where you can sit on the top and have a great view while you go for a ride!
