

Okay! Imagine a big van that goes all around, bringing us yummy treats. Inside this van, there is a big freezer, which is like a super cold box. It keeps lots and lots of ice cream safe and ready for us to enjoy!

Now, some of these ice cream vans have a really special machine. This machine can make ice cream right inside the van! It can make different flavors like strawberry, which is red and sweet, or even bubblegum, which is pink and tastes like candy!

So, when you see an ice cream van, remember, it's like a treasure box full of delicious frozen treats waiting for you to taste!
