

My favorite toy train is really awesome! It is bright red and blue, and it makes fun sounds when I press a button. The train has tiny wheels that spin super fast! I love to watch it go chugging around the track. Sometimes my mom and dad help me build a big track with bridges and tunnels. I like to pretend the train is going on an adventure to a faraway land. My train can carry little cars and even my toy animals! I play with it every day, and it makes me so happy. The best part is when my friends come over, and we play together with the train! It's my favorite toy because it takes me on magical journeys!
