

Hi Vienna! Let's explore the prefix '**dis**' together.

A prefix is a group of letters we put at the beginning of a word to change its meaning.

The prefix '**dis**' usually means to **do the opposite** of something or to **remove** something. Here are some examples:

- **Disagree:** If you agree with someone, you have the same opinion as them. But if you disagree, it means you have the opposite opinion.
- **Dislike:** If you like something, it means you enjoy it. But if you dislike it, it means you do not enjoy it.
- **Displace:** To place something means to put it somewhere. If you displace it, you move it out of its original place.

So, remember, when you see 'dis' at the beginning of a word, it often means 'not' or 'opposite'. This can help you understand new words!
