

What is a Conga Drum?

A Conga drum is a tall and skinny drum that you can play with your hands! Imagine a tall soda can but much bigger. It stands up straight and is also narrow, just like a tree trunk.

How Do You Play It?

To make music with the Conga drum, you use your palms and fingers. You gently tap on the drum's top part. When you tap it, it makes a cool sound!

How Does It Sound?

When you hit the drum hard, it sounds deep and loud. If you tap softly, it sounds higher and quiet! You can make lots of different sounds by using different parts of your hands.

In Summary

The Conga drum is a fun drum to play. You can make music by tapping it with your hands! Let's listen to the amazing sounds it can make!
